

XSF: Cross Site Flashing

Cite as: Martin Paul Eve, "XSF: Cross Site Flashing", *eve.gd: Martin Paul Eve*, May 19, 2007, <https://doi.org/10.59348/eyyc4-zmm80>.

Stefano Di Paola presented an [interesting paper](#) on Flash security at OWASP 2007 which highlights the dangers of HTML being rendered from within Flash via GET querystrings. Of particular note is the non-sanitization of comments (filter evasion by // .jpg) so check it out.
