

A bad day for browsers

Cite as: Martin Paul Eve, "A bad day for browsers", *eve.gd: Martin Paul Eve*, June 05, 2007, <https://doi.org/10.59348/xzrtk-zty04>.

Today there were 5 flaws for Firefox and IE6/7 unveiled - 2 for IE and 3 for Firefox.

Michal Zalewski disclosed 3 at <http://seclists.org/fulldisclosure/2007/Jun/0026.html> and the other can be found at <http://larholm.com/2007/06/04/unpatched-input-validation-flaw-in-firefox-2004/>.
