This is a quick post to give an update on the report from the first meeting of the UK Pynchon Network.

I have had several requests for reports on the day and also for recordings. This will all be forthcoming. The delay is due to the fact that Vimeo (YouTube has a restriction of 15 minutes length on most accounts) will not permit free account holders to upload more than 500mb worth of video per week. This means that it will, unfortunately, take me quite a long time to get all the videos online.

That said, I do hope to have some summaries and an overview of the day up sooner than this. Stay tuned!
