CROSSREF

In my time working at Crossref, I:

- Built a tool to measure digital preservation across 7 million DOIs
- Productionized and deployed the multiple resolution and co-access tool, Chooser
- Conducted initial prototyping work of the Op Cit automatic digital preservation system
- Reported on content drift detection systems and state of the art in document difference detection
- Generated and managed the annual data file release including infrastructure
- Created format experiments and tools for the annual data file release
- Ran and managed the community books interest group
- Built and ran the Labs API system for prototyping new metadata schema
- Wrote and managed the tools for importing Retraction Watch data into Crossref's system

OPEN LIBRARY OF HUMANITIES

From 2013 until 2023 I founded and then ran the Open Library of Humanities (OLH) as its CEO. This involved all the financial and personnel management, publication workflow oversight, technology management, outreach and publicity/marketing, and policy. The platform is a major driving force in humanities open access and I built the underlying economic model and wrote the research on which the platform was built.

While working on OLH, I also founded the Janeway publishing platform, now used internationally by institutions such as UCL, Iowa State Press, and many others.

INFORMATION TECHNOLOGY

Extensive technological experience, including WordPress/BuddyPress plug-ins and themes, SQL databases (MySQL and Postgres), AWS cloud provisioning, LAMP, LEMP, LAPP, and Traefik-based stacks, REST API frameworks, Elasticsearch, CI/CD setup and maintenance, Git versioning (and GitHub hosting), unit testing, Rust, Python, Django, Flask, C#, JavaScript, Java, ASP.NET, Terraform (AWS), XHTML, XML, XSLT, HTMX and more.

- 2022** AWS Certified Cloud Practitioner
- 2007** Microsoft Certified Professional – C# and the .NET Framework
Proficient in: Python, Django, PHP, ASP.NET, SQL, Terraform (AWS cloud), XHTML, *nix/BSD-variant (including LAMP-stack) system administration, XML, XSLT
SQL experience with Postgres, MySQL, and SQLite

XML and XSLT experience, particularly with JATS and BITS
 Extensive technical project management experience: founded Janeway and the Open Library of Humanities

DIGITAL HUMANITIES / SOFTWARE OUTPUTS

- 2022-** django-caretaker: a platform for backing up/digitally preserving Django applications. Runs on Linux.
Time and Tide: an AWS Lambda function to produce a tide times ical file for sea swimmers.
- 2021-** Open Book Collective: a platform for open-access monographs. Runs on Linux.
- 2017-** Janeway: a platform for open-access journal publishing. Runs on Linux.
MLA Core: contributed code to fetch DOI metadata.
- 2016-** annotran: a web application based on hypothes.is that allows for the translation of web pages. Runs on Linux.
dateText: a tool to date the first use of a list of words. Runs on Linux, Mac OSX and maybe Windows.
- 2015-** CaSSius: a CSS-regions/web-based PDF typesetter for scholarly communications.
PlotSummary: a tool to plot various types of linguistic density graphs for a series of plaintext files in a directory. Runs on Linux and Mac OSX.
SankeyVariant: a web-based tool to visualize textual variance/genetics using d3.js.
- 2012-** ePrintsCV: a tool to generate a list of academic publications in a web/CV-friendly format for academic websites. Runs on Linux and Mac OSX.
meTypeset: a tool to convert from Microsoft Word .docx format to NLM/JATS-XML for scholarly/scientific article typesetting. Runs on Linux and Mac OSX.
